Custom Processing Options and Prices

Fiber must be well skirted*, free from felting, insects, mothballs, or extremely dirty material/debris. *If you don't want it in your final product, remove it now.* Yes, Alchemy is a little bit magic, but there are limits to our magic! Fiber with burrs, wood chips, hoof trimmings, heavy vegetation or other materials that may damage equipment will not be accepted. We reserve the right to reject any fiber for any reason. Prices subject to change without notice.

Fiber accepted in-person only at this time. Email us with contact info, fiber type/breed, and estimated quantity to be added to our processing queue. We'll reach out when your spot is about two weeks away so we can schedule your drop off appointment.
